

21st New Phytologist Symposium
The ecology of ectomycorrhizal fungi
Montpellier, France, 10–12 December 2008

DRAFT PROGRAMME

Wednesday 10 December

1700h Registration/Poster session/Drinks
2000h Dinner

Thursday 11 December

0845h Welcome – Marc-Andre Selosse & Ian Alexander

Session 1 Individuals

Chair: I Alexander

0900h The genetics and life cycle of *Tuber magnatum*
Andrea Rubini

1000h Fungal individuals in the forest – learning from *Armillaria*
Jim Anderson

1100h Coffee

1130h Resource allocation in mycelial systems
Mark Fricker

1230h Lunch

Session 2 Populations

Chair: M-A Selosse

1400h Gene flow and cryptic species in ectomycorrhizal fungi
Greg Douhan

1500h Population genetics of *Rhizopogon*
Annette Kretzer

1600h Coffee

1630h The biogeography of ectomycorrhizal fungal species
Andy Taylor

1730h Posters

2000h Symposium Dinner

Friday 12 December

Session 3 Communities

Chair: Roger Koide

- 0900h Community assembly in ectomycorrhizal fungal communities
Peter Kennedy
- 1000h Host effects on ectomycorrhizal fungal community composition
Kazuhide Nara
- 1100h Coffee
- 1130h Functional diversity in ectomycorrhizal fungal communities
Jean Garbaye
- 1230h Lunch
-

Session 4 Conclusions

Chair: D J Read

- 1400h Overview
Tom Bruns
- 1500h Final Discussion
- Meeting close & Depart
-
